

Dear Valued Advisers and Clients,

Also known as Level 2 Market Data, Market Depth data allows investors to view up to 20 levels of buy and sell orders in SGX-listed securities, enabling them to make better trading decisions.

Besides helping investors gauge and derive at a suitable price when placing trades, Market Depth data also enables investors to reinforce their trading decisions by allowing them to:

1. Check Liquidity
2. Optimise Orders
3. Establish Demand and Supply (Support and Resistance)

You may refer to the [guide](#) provided by SGX for more information.

From now until 31st December 2026, all new and existing iFAST account holders will be able to access FREE market depth data – after logging on to our client website and accessing the "Stock Trade" page, select **Market Data Services**.

Please note that this is only available to account holders with access to the Stock Trade page. For any enquiries, please check with your Financial Adviser.

TERMS AND CONDITIONS

1. We reserve the right to end this promotion at any time.
2. Free Market Depth Data is available until (and including) 31st December 2026.
3. Free Market Depth Data will be activated upon successful subscription.

We reserve the right to amend the Terms and Conditions without prior notification.
